

Searching within an Adobe Acrobat Document (PDF)

Searching an Acrobat document (PDF) is relatively simple. To search a document, follow these steps ...

Step 1

If possible upgrade your Adobe Acrobat Reader to the latest version. You can find the latest version here: <http://www.adobe.com/products/acrobat/readstep2.html>

Step 2

Open the document by choosing the File Menu and clicking "Open". Or, if you have clicked on a web page link, such as the ones for the Practice Parameters, the document will invoke an instance of the reader in your web browser and load itself.

Step 3

With the document open, select the Edit Menu and choose "Search", or click the find button ...
